# 1. BACKGROUND

The ON TRACK Network has been established to build upon New Zealand's current strong expertise in maternal and perinatal health to develop a new, transnational, maternal, neonatal and pediatric network of researchers. This has been funded by an award from the University of Auckland Strategic Research Initiative (SRI) Fund with the following key objectives;

1. To build the ON TRACK Network across professional groupings and geographical locations in New Zealand, by engaging and energising the research-interested community, to undertake investigator-initiated, high priority, collaborative, clinical research trials in maternal, fetal, and neonatal health, including long-term outcome studies.
2. To build a Central Coordinating Clinical Trials Research Hub, based at the Liggins Institute that provides key infrastructure support for the conduct of these high quality research trials.
3. To conduct high quality, large scale, cross disciplinary research within the ON TRACK Network to address major health challenges and to disseminate and apply new research findings to will inform health practice and policy and so promote better health and well-being for our communities

# 2. ROLE OF THE ON TRACK NETWORK NATIONAL EXECUTIVE COMMITTEE

The role of the **ON TRACK Network** National Executive Committee is as follows:

- Develop a Strategic Plan for the Network including a vision, mission statement, core values, research goals, organizational structure and sustainability
- Build training capacity within ON TRACK Network
- Liaise with Health Services, District Health Boards (DHBs), Ministry of Health (MOH) and other Stakeholders
- Facilitate the generation of new research priorities and questions
- To support and advocate the importance of maternal and perinatal health clinical research
- Facilitate the dissemination of research findings
- Facilitate collaborations with other Clinical Trial Networks

# 3. RESPONSIBILITIES OF NATIONAL EXECUTIVE COMMITTEE MEMBERS

Individual National Executive Committee members have the following responsibilities:

- Understand the goals, objectives, and desired outcomes of the project.
- Take a genuine interest in the project's outcomes and overall success.
- Act on opportunities to communicate positively about the Network and projects at their locality.
- Provide feedback to the ON TRACK Network SRI Steering Group and the Operations Management Committee of the Research Hub.
- Actively participate in meetings through attendance, discussion, and review of documents.
